---

19  
20 It is hereby stipulated and requested by the parties, Anthony Brass for Defendant Kristy  
21 Watts and Doug Sprague for the United States of America, that the surrender date for defendant  
22 be continued to **January 7, 2011**.

23  
24 This court previously signed two orders extending the surrender date for Ms. Watts due  
25 to her recent diagnosis of breast cancer. Since that time, I have been informed that Assistant  
26 United States Attorney Doug Sprague has communicated with a representative of the Bureau of  
27 Prisons (BOP) with regard to defendant's treatment options. Based upon the specific  
28 circumstances set forth in a letter from Ms. Watts's physician, the BOP's regional medical staff  
believes it would be effective and efficient for Ms. Watts to complete her treatment as requested

1 by her physician and out of custody.

2 Allen Lew of pretrial services has been notified and has no objection to a stay of Ms.  
3 Watts' surrender date until the completion of her treatment for breast cancer.

4  
5 Wherefore, it is stipulated between parties and requested that Ms. Watts's surrender date  
6 be continued to January 7, 2011.

7  
8 Dated: July 6, 2010
